

Pin Configuration

SOP-7

Marking Information

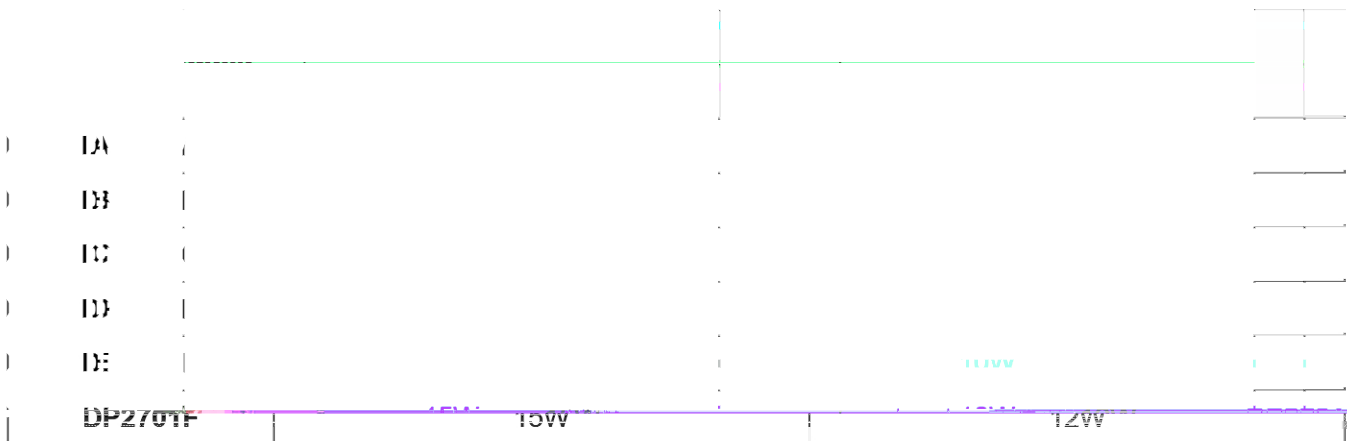

SOP-7

DP2701X for product name:

XXXXXX represents the month, and XX represents the year. For example, the date code 1014 represents the 10th month of the year 2014. The first and second 'X' represent the factory, the third and fourth 'X' represent the date code, and the fifth and sixth 'X' represent the lot number.

Electrical Power Rating

NOTE 1: For details, please refer to the datasheet.

NOTE 2: The maximum power is limited by the ambient temperature.

NOTE 3: The maximum power is limited by the ambient temperature.

The typical continuous power limit is 10W in a non-ventilated enclosed adapter with sufficient drain pattern as a heat sink at 50°C ambient.
